

Managed Detection & Response

Detect and respond to
security incidents 24/7

Discover breaches in real time and minimize damage

Product sheet
Managed SIEM & MDR

With Dubex Managed SIEM & MDR you get access to a fully managed state-of-the-art SIEM platform. Dubex performs the daily work related to the platform and maintain the collection of your logs, including setup, verification, configuration etc. You have 24/7 access to the platform and can perform all kinds of investigation in your own data.

In addition, your logs are proactively monitored and analyzed in relation to Dubex use case repository. Dubex tracks and classifies incidents, analyses the level of risk and which assets, including devices, machines, or systems, are affected. The incidents are automatically mitigated and/or the customer is informed according to SLA.

>100bn

processed events pr.
month in Dubex Cyber
Defence Center in Søborg

Quarterly status meetings and management reports are included in the service. That provides an overview of incidents, areas for action and trends in the market. Dubex ensure documentation for management, the IT audit and other stakeholders and help start and open up the dialog.

KEY SERVICE BENEFITS
